

About Me

My name is Bobby Slavin and I graduated from Central High School in Little Rock, Arkansas in 2020. I'm currently working on my degree in data science at the University of Arkansas and I'm planning on graduating in 2024. I'm still not certain about what I want to do after I graduate, but right now I'm thinking about continuing my education and going to graduate school. I've always enjoyed analyzing data to find the trends behind it and I think that I found the field that's perfect for me. One of my hobbies is going on the internet and reading about weird statistics that are actually true.
